Provides with respect to parole revocation for certain sex offenders

The present law provides that any offender who has been released on parole and whose parole supervision is being revoked for his first technical violation of the conditions of parole, as determined by the Board of Parole, shall be required to serve a maximum of 90 days without diminution of sentence or credit for time served prior to the revocation. The present law provides that any offender released on parole for the conviction of a crime of violence or a sex offense is not eligible for the 90-day parole revocation period. The proposed legislation retains present law and adds that any offender who is subject to the sex offender registration and notification requirements is ineligible for the 90-day parole revocation period.

Table with 7 columns: EXPENDITURES, 2010-11, 2011-12, 2012-13, 2013-14, 2014-15, 5 -YEAR TOTAL. Rows include State Gen. Fd., Agy. Self-Gen., Ded./Other, Federal Funds, Local Funds, and Annual Total for both EXPENDITURES and REVENUES.

EXPENDITURE EXPLANATION

The proposed legislation may result in an increase in state general fund expenditures. The exact fiscal impact of the passage of this legislation is indeterminable since it adds offenders that are not eligible for the 90-day parole revocation period and it is not known how many parolees will have their parole supervision revoked. Any offender who violates parole and is not eligible for the 90-day parole revocation period may serve more than 90 days in the custody of the Department of Public Safety and Corrections.

The increase in state general fund expenditures would be \$21.83 (\$24.39 per day - \$2.56 per day per offender under parole supervision) per day per offender in local facilities. To the extent that offenders are sentenced and housed in state facilities, the increase in cost per day per offender would be \$51.93 (\$54.49 per day - \$2.56 per day per offender under parole supervision). Currently, the Department of Corrections houses 50% of state offenders at the local level and 50% at the state level.

REVENUE EXPLANATION

The proposed legislation may result in a decrease in self-generated revenue. Parolees that have parole supervision revoked would no longer be required to pay the \$53 per month supervision fee since they would be incarcerated.
